

Anesthesiologist: \_\_\_\_\_ Date of Service: \_\_\_\_/\_\_\_\_/\_\_\_\_

ASA Physical Status    1   2   3   4   5   6

Same MD, DOS and same patient. State Procedure: \_\_\_\_\_

**AQI61: Ambulatory Post-Discharge Patient Follow Up (Process)**

**Denominator Exclusions**

- 11A34: Patients who were transferred to a higher level of care
- 11A35: Patients who were unable to be contacted or did not complete assessment

**Performance Met**

- 11A36: Patient post-discharge status was assessed within 72 hours of discharge

**Performance Not Met**

- 11A37: Patient post-discharge status was NOT assessed within 72 hours of discharge

**Place of Service Code:**

- 19
- 22
- 24

**AQI62: Obstructive Sleep Apnea: Patient Education (Process)**

**Denominator Criteria**

- G9643: Elective Procedure

**Denominator Exclusions**

- G47.33: Patient has an existing diagnosis of OSA
- 11A29: Patient has an existing diagnosis of OSA
- 11A30: Documentation of patient reason for not providing education regarding risk of OSA

**Performance Met**

- 11A31: Positive patient OSA screen AND documented education regarding risk for obstructive sleep apnea prior to PACU discharge
- 11A32: Negative patient screen for OSA

**Performance Not Met**

- 11A33: No patient screen for OSA OR Positive OSA screen result and no documented education regarding risk for OSA prior to PACU discharge

**AQI68: Obstructive Sleep Apnea: Mitigation Strategies (Process)**

**Denominator Criteria**

- G9643: Elective Procedure

**Performance Met**

- 11A26: Positive patient screen for OSA OR existing OSA diagnosis AND documentation of two or more mitigation strategies used prior to PACU discharge
- 11A27: Negative patient screen for OSA
- 11A38: Documentation of medical reason(s) for not screening for obstructive sleep apnea and/or documenting the use of two or more mitigation strategies

**Performance Not Met**

- 11A28: No patient screen for OSA OR positive OSA screen result and Documentation of less than 2 mitigation strategies used prior to PACU discharge

**AQI56: Use of Neuraxial Techniques and/or Peripheral Nerve Blocks for Total Knee Arthroplasty (TKA) (Process)**

**Denominator Exclusions**

- 11A09: Revision of TKA
- 11A10: Prosthesis Removal

**Performance Met**

- 10A78: Neuraxial anesthesia and/or a peripheral nerve block was used
- 11A01: Documentation of patient reason(s) for not using either neuraxial anesthesia or a peripheral nerve block

**Performance Not Met**

- 10A79: Neuraxial anesthesia and/or a peripheral nerve block was NOT used

**AQI18: Coronary Artery Bypass Graft (CABG): Prolonged Intubation (Outcome)**

**Performance Met**

- G8569: Prolonged postoperative intubation (>24 hours) required

**Performance Not Met**

- G8570: Prolonged postoperative intubation (≥24 hours) not required

**Quantum 31: Central Line Ultrasound Guidance (Process)**

**Denominator Criteria**

- 10A66: Internal jugular site insertion

**Denominator Exclusion/Exception**

- 11A39: Tunneled placement through same, existing site as previously placed and currently indwelling non - tunneled placement

**Performance Met**

- 10A67: Clinician used ultrasound guidance during central line placement when internal jugular site used

**Performance Not Met**

- 10A68: Clinician did not use ultrasound guidance during central line placement when internal jugular site used
