

2019 MIPS Measures Available for Reporting through AQI NACOR

Clinicians and groups reporting via Qualified Registry or Qualified Clinical Data Registry (QCDR) can report Merit-based Incentive Payment System (MIPS) measures to fulfill requirements for the MIPS Quality component. Download full measure specifications from The Centers for Medicare & Medicaid Services (<https://qpp.cms.gov/about/resource-library>).

Quality ID	Measure Title	Measure Type	High Priority
MIPS 44*	Coronary Artery Bypass Graft (CABG): Preoperative Beta-Blocker in Patients with Isolated CABG Surgery	Process	No
MIPS 47	Care Plan	Process	Yes
MIPS 76*	Prevention of Central Venous Catheter (CVC) – Related Bloodstream Infections	Process	Yes
MIPS 128	Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	Process	No
MIPS 130	Documentation of Current Medications in the Medical Record	Process	Yes
MIPS 131	Pain Assessment and Follow-Up	Process	Yes
MIPS 154	Falls: Risk Assessment	Process	Yes
MIPS 155	Falls: Plan of Care	Process	Yes
MIPS 182	Functional Outcome Assessment	Process	Yes
MIPS 226	Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	Process	No
MIPS 317	Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented	Process	No
MIPS 404*	Anesthesiology Smoking Abstinence	Intermediate Outcome	Yes
MIPS 408	Opioid Therapy Follow-Up Evaluation	Process	No
MIPS 412	Documentation of Signed Opioid Treatment Agreement	Process	No
MIPS 414	Evaluation or Interview for Risk Opioid Misuse	Process	No
MIPS 424*	Perioperative Temperature Management	Outcome	Yes
MIPS 430*	Prevention of Post-Operative Nausea and Vomiting (PONV) – Combination Therapy	Process	Yes
MIPS 463*	Prevention of Post-Operative Vomiting (POV) – Combination Therapy (Pediatrics)	Process	Yes

Measures with an asterisk () are included in the CMS-recommended Anesthesiology Measure Set. Eligible clinicians and groups are not required to report these measures towards the six measures required for the MIPS Quality component but may find them applicable to their practice.

**Beginning in 2019, MIPS 426: Post-Anesthetic Transfer of Care Measure: Procedure Room to Post Anesthesia Care Unit (PACU) and MIPS 427: Post-Anesthetic Transfer of Care: Use of Checklist or Protocol for Direct Transfer to Intensive Care Unit (ICU) are no longer available for reporting via MIPS.

***High priority measures include those measuring appropriate use, patient safety, efficiency, patient experience, care coordination or are opioid-related per their National Quality Strategy (NQS) domain.
