Keeping provider lists up to date

It is important for practices to routinely update their provider lists in the NACOR Dashboard. AQI's NACOR uses the list as the record of truth for CMS data submission, as well as Provider Reconciliation/Invoicing. Your practice should make sure the following are correct:

- TIN
- Provider NPI
- Report to CMS Status

This step-by-step guide will walk you through the updating process. Providers who have retired or left your practice should be marked as "disabled" and "No" in the Report to CMS field. The deadline for updating the provider list is February 15.

Quality reporting reconciliation to begin soon

As noted in the NACOR Standard Quality Reporting order form completed by practices at enrollment, AQI will soon begin reconciling purchased Eligible Clinician (EC) counts against actual data submitted. AQI will begin sending invoices where applicable in January, and all payments must be received by March 16, 2018.

For example, if a practice ordered quality reporting services for 10 CRNAs, but submitted data for 12 CRNAs, AQI will invoice for two additional CRNAs. If AQI does not receive payment for the two additional CRNAs by March 16, 2018, data may not be submitted to CMS.

Attesting to Improvement Activities via NACOR

Clinicians can attest to 2017 Improvement Activities using the provider list in the NACOR Dashboard. In this step-by-step tutorial, clinicians learn how to select the Improvement Activity to which they will attest through either the *individual or group reporting option.*

As participants of NACOR, practices can attest to activity IA_PSPA_1: Participation in an AHRQ-listed patient safety organization. This is a medium weighted activity worth 10 points.
