FINAL 2017 NACOR Quality Reporting Registration and renewal deadline is October 31

Practices renewing for 2017 NACOR Quality Reporting must complete the [online order form](#) by Tuesday, October 31. More information about NACOR Quality Reporting is available on the [NACOR Quality Reporting Options and Mechanisms webpage](#).

Importance of submitting appropriate measure codes

When preparing your NACOR data submission, carefully review the CPT codes within the denominator of each measure against the CPT codes that you bill. AQI's NACOR can only evaluate CPT codes included in the specifications for each measure. For example, if a given measure requires ASA CPT codes, NACOR cannot evaluate surgical CPT codes for that measure. If appropriate CPT codes are not submitted, NACOR cannot calculate the measures a practice intends on reporting. For more information on measure specifications, refer to the [2017 QCDR Measure Booklet](#) and [2017 MIPS at a Glance](#).

Activate your account for the NACOR data submission portal

AQI records indicate that many accounts have still not been activated. Your practice/vendor received email instructions with new FTP account information. For assistance with FTP login credentials, accessing the portal, file upload and file feedback reports, email nacorsupport@arbormetrix.com.

Add colleagues to AQI's communications
