

Beginning in 2019, the American Society of Anesthesiologists (ASA) and the Anesthesia Quality Institute (AQI) are excited to add more features and benefits to the National Anesthesia Clinical Outcomes Registry (NACOR). To better address individual and practice needs, AQI is adding enhanced dashboards for better analysis, opportunities to view benchmarked data, and the chance for eligible physicians to earn MOCA Part IV credit for reviewing data.

ASA is adding these offerings to ensure NACOR remains the leader in the specialty of anesthesia. These new products and services will result in a change in the NACOR pricing structure for 2019. ASA members and NACOR participants will see a fee adjustment in 2019 for NACOR Benchmarking and NACOR Quality Reporting. NACOR Basic remains a complimentary member benefit and pricing for NACOR Quality Concierge is unchanged in 2019.

ASA is confident NACOR's new services and products will allow anesthesiologists and their practices to continue customizing data, meet federal quality reporting requirements, and support local quality improvement initiatives.

This easy-to-use chart reflecting the 2019 fee adjustments will help you determine which NACOR option is the best choice for you or your practice in 2019:

While rolling out these new services, AQI remains committed to the vision created during our very first days in 2008: “to be the primary source of information for quality improvement in the clinical practice of anesthesiology.” We hope you find these NACOR offerings helpful in demonstrating your value. Thank you for your support.
