

The American Society of Anesthesiologists (ASA) and the Anesthesia Quality Institute (AQI) are excited to offer more features and benefits to the National Anesthesia Clinical Outcomes Registry (NACOR). To better address individual and practice needs, AQI is adding enhanced dashboards for better analysis, opportunities to view benchmarked data, and the chance for eligible physicians to earn MOCA Part IV credit for reviewing data.

NACOR is working to remain as the leader in the specialty of anesthesia. Listed below are the fees for 2020 NACOR Benchmarking and NACOR Quality Reporting. The fees remain the same as 2019.

NACOR Basic remains a complimentary member benefit and pricing for NACOR Quality Concierge is unchanged in 2020.

ASA is confident NACOR's services and products will allow anesthesiologists and their practices to continue customizing data, meet federal quality reporting requirements, and support local quality improvement initiatives.

This easy-to-use chart shows the 2020 fees to help you determine which NACOR option is the best choice for you or your practice in 2020:

2020 Products and Services	NACOR Basic	NACOR Benchmarking	NACOR Quality Reporting	NACOR Quality Concierge
Submit data to NACOR	✓	✓	✓	✓
NACOR dashboard	✓	✓	✓	✓
MOC Part IV module	✓	✓	✓	✓
Local analytic reports	✓	✓	✓	✓
National benchmarks		✓	✓	✓
National comparative analytic reports		✓	✓	✓
MIPS Quality Reporting Component			✓	✓
MIPS Improvement Activities			✓	✓
Patient Experience Survey				✓
Mobile app				✓
Aggregation, merging, and validation of data				✓
Opioid Dependence Risk Alert				✓
Full EHR integration				✓
